

Classic 2.0

What is DiSC and DiSC Classic 2.0?

DiSC is the original, most reliable personal behavioral assessment used by millions of people worldwide. It is used to improve work productivity, communication, enhance team relationships, resolve interpersonal conflict, and many more applications. Your DiSC profile is created by answering a survey and your results are scored on a 4-dimensional model. DiSC Classic 2.0 is the 23-page report that is produced from your survey.

Test or Assessment?

The DiSC profile, describing human behavior, is a very popular assessment. Many people refer to DiSC as a “personality test” or a “DiSC test”. We don’t believe DiSC is a test nor a diagnostic tool, because there are no wrong or right answers. Rather, we believe DiSC is a dialogue tool – a foundation for non-judgmental language to improve 1:1 and group interactions. Every style has its unique strengths and areas for further development.

Bring out the best in you!

DiSC can help you in many areas:

- understand your own behavior.
- learn how and when to adapt your behavior.
- improve communication.
- promote appreciation of differences.
- enhance individual and team performance.
- reduce conflict.

DiSC Applications
